TECHNICAL SKILLS

PROGRAMMING LANGUAGES

- Java
- HTML
- JavaScript
- PHP
- CSS
- C

FRAMEWORKS & TECHNOLOGIES

- React
- Springboot
- React Boostrap
- Git & Github
- Docker
- Nginx
- AWS
- MySQL

ABOUT

As a dedicated software engineering undergraduate with a strong focus on web development and DevOps, I bring a robust set of skills including teamwork, communication, organizational and interpersonal abilities. Being passionate about expanding my knowledge and building a solid career framework, I am eager to contribute meaningfully to the workplace and become a valuable asset to the team.

EDUCATION

BSc. (hons) in Software Engineering **2022 - PRESENT**
University of Kelaniya , Sri Lanka.

Current GPA - **3.0** /**4.0**

Domains:
- Data Science and Machine Learning
- Net-Centric Web Application Development
- Business Engineering Application

G.C.E Advance Level - **Physical Science** **2020**
Mahinda College, Galle

Z score - **1.5627**

- Chemistry - A
- Combined Mathematics - B
- Physics - B
- General English - C

PROJECTS

Online Liquor Store (Individual) **June 2024**
Full Stack E-commerce Web Application
React.js | REST API | Java Spring Boot | Spring Security | JWT | MySQL
T full-stack liquor store application featuring authentication and authorization. Users can register and log in to order liquors, add items to their cart, and add to their wishlist. They can also complete purchases using an integrated payment gateway. The admin panel provides comprehensive control, allowing admins to manage products, monitor orders, and oversee all aspects of the store operations.
https://github.com/GaveenBuddhika/liquore-Store--web

Employee Management System (Individual) **May 2024**
Full Stack Web Application
HTML| JavaScript | Boostrap | REST API | Java Spring Boot |MySQL
The user management system is a web application developed with Spring Boot for backend functionality and JavaScript, HTML, and Bootstrap for the frontend. It offers essential CRUD operations to manage employee data, allowing users to save, delete, retrieve, and update employee records efficiently.
https://github.com/GaveenBuddhika/Simple-employee-management-system

Personal Portfolio(Individual)
May 2024

Web Application
React Js | CSS | |React Boostrap | Docker
Personal portfolio website, crafted with React, React Bootstrap, and CSS. This site showcases my professional skills, past projects, and provides a contact form for inquiries. Additionally, users can easily download my CV with a single click.

https://github.com/GaveenBuddhika/portfolio

Online Food Ordering Website (Group)
Nov 2023

Web Application
HTML | CSS | PHP | JavaScript
online food ordering website using HTML, CSS, PHP, and JavaScript. The website includes user authentication, allowing users to register and log in. Users can browse and buy products, add items to their cart, and add items to their wishlist. They can also view their order history. Admins have the ability to add, update, and edit products, ensuring the menu is always up-to-date. Super admins have overarching control, enabling them to manage all admin accounts and their permissions.

User Manageent System (Individual)
Dec 2023

Full Stack Web Application
HTML | CSS | PHP
A basic user management system developed using HTML, CSS, and PHP. Enables users to register, log in, and manage their profile information. Utilizes a MySQL database to store and manage user data securely. Provides a foundation for building more complex web applications with user authentication and authorization.
